Congressional Votes of Seventh District. We have received additional returns which

give a gain of 15 votes for Robinson. Cranberry Isles gave a majority of 5 for Cary; Seaville gave 12 majority for Robinson; No. 33 Middle Division gave for Robinson 5, Cary 2; Beddington gave for Cary 4; Annsburgh, Robinson 1 Cary 2; there was no meeting in Baring.

We give below all the returns we have received from the Seventh Congressional district, from which we learn the gratifying fact that Shepard Cary is defeated in his fond anticipations of getting a seat in Congress at present.-The fact as to the election or non-election of Mr Rabinson, can now only be ascertained by the official count. This is a victory, as it is the third trial, and every arrangement had been made by Mr Cary's party to give him a triumphant majority. His personal friends were very active .-His partizans in the legislature had been taxed to heal all difficulties and then to issue a handbill address to the people. Hand bills were spread all through the district. The office holders, within the limits, worked with great zeal in behalf of Cary. He was not only to be elected, but so borne upon the palms of his political friends as to sink in the veriest insignificance, the Whig vote!

Opposed to all this effort was the quiet, steady action of the whigs of the district, just beginning to rouse up in reference to the presidential elec-

The enlarged Courier was received by me a few days since, and I have to acknowledge that your other patrons had been more prompt than I had, or instead of its enlargement its requiem would come to me through some other channel. But I must plead something in extenuation or palliation-and not being dunned; but another, and the one on which I rely, is the scarcity of Eastern money here. I promise, however, if I get credit for this, not to be so far in the arrears again, and that may be some consolation. Discipline of the Militia.

To the Editor of the Whig & Courier :

The fact being indisputable, that the great degradation of our militia is entailed upon it by its want of discipline, I propose to say a word or two upon this subject. Past experience goes to show of victories which resulted in the election of that when any budy of militia is found well officred, and consequently well drilled; such troops not only respect themselves, but are respected by every beholder and that those in the reverse attitude, draw upon them the merited ridicule of the looker on. Here then we see, that the respectability of the militia system rests wholly upon its officers. Gentlemen who accept commissions, must be active in duty, and honor their commissions, when their commissions will honor them. The system must have life and vitality. It cannot lie dormant and live.

Officers should be active too, in correcting publie opinion in relation to this subject. Their hearts should swell with patriotism and love of duty, which they should infuse into the hearts of the soldiery. Officers should disseminate correct principles throughout the ranks, and make the soldier feel it to be an honor to do duty, both from the love of it and the love of country-especially if he does his duty in a soldier-like and systematic manner. Once get public opinion right throughout the ranks, and you have an

honorable and efficient militia. This duty devolves to a great degree on the platoon officer. This class of officers, as a body, neither know or appreciate their importance.tound a special verdict that he was as well The Captain, or commanding officer of companies, and his subalterns, are the legitimate disciand judgment was therefore rendered, in chief, planarians of the army. Here Kent and Cutting, and Cony and Sewall, for you have a fuct demonstration of the cause of the degradation of our militia. In years

The Captains should have their companies efficiently supported by their subaltern and noncommissioned officers.

From time immemorial it has been the custom for commanding officers of companies on the May Inspection, to merely get their men inmilitia law, go through an informal inspection than twenty minutes. This is entirely wrong. The same person was thereupon again put on They should improve the afternoon in drilling the school of the squad and the companybringing them into position in close order, marching by the lock step; and in the manual of arms. And before he dismisses, he should preach the right doctrines to them and inspire them with patriotic sentiments. And he should exhort them to not only remember what he has taught them, but to make advances in the scithat may be first-distance, with the advantage of ence by means of study and self-drill. This course should be pursued at the " fall training," and then we may expect to see the companies to give their names this day to J. S. Wheelwright, marched into line on the day of Review, in "fine shape." To prepare the officer for this duty, the "officer drill" recommended in the report of the Adjutant General, a most eminently essential.

Uniform of the Militia.

Tew questions appertaining to the Militia is, in my opinion, of greater importance than the uniform of the officers.

With a commendable zeal to advance the interest and honor of our militia, the present Adjutant General prescribed for the officers, some two years since, a uniform, corresponding with the officers of the Army. The wisdom of this order, is, it seems to me, too apparent to need comment. And it is my desire to call the attention of officers to the subject, who seem to be inclined to disregard it. How is it possible for a military officer to perform military duty in the garb of a civilian, or in a suit of livery. I cannot conceive-especially, when he can have a uniform so beautiful, so rich and elegant, and at the same time, so cheap.

The character of our militia, depends wholly on the character of its officers, and in order to judge correctly of an officer, it is only necessary to see his uniform. In procuring uniforms, I advise officers to see that they are made right .-From my own observation, which is limited, however, I judge that our tailors, especially those in he country, have very little knowledge of uni form making. They should be careful too, to

One word I wish to say here, on the manner of wearing the chapeaux. The chapeaux, is the most beautiful military cap, for an officer, ever invented, and is of French origin.

If officers will notice its peculiar form, and style in which it is trimmed, they will see at once, that it should be worn square across the shoulders, and not " fore and uft," as is now the case. If necessary, however, I would advise an examination of French engravings of unlitary displays, which will corroborate my position. I would, however, recommend that it be worn a little over the left eye, instead of square "athwart" the shoulders. I am aware, that the Hatters block them so that it is difficult to wear them in any other position than from and rear. But it is but little trouble to have them re-blocked in order to wear them cor-

Why a hatter, destitute of taste and military knowledge, is permitted to force an illegitimate lashion upon the officers of the militia, I am unable to conceive, and especially, one that annihilates all correct inditary appearace. With the chapeaux 'fore and aft,' the point comes directly in contact with the sight, when the officer will throw up the head, out of the true position of the soldier, jostling the chapeaux on the back of [the head, with the plume dangling down the back, appearing as if he had been struck by a thunder sword, when not only the chapeaux, but the plume should be upright.

There is a certain finish about a military officer in uniform, when all is right, that may be wholly put out of joint, by a little carelessness STELBEN. or bad taste.

WRIGHT'S Indian Vegetable Pills.

The True Character of Counterfeiters and Sellers of Counterfeit Medicines.

Medicine has been mercan have been American Public, whose rirtues have been more cheerfully and universally neknowledged by its vast popularity, and extensive circulation, than "WRIGHT'S INDIAN VEGETABLE PILLS."

To descant upon their various virtues at this late season would be a work of supererogation, since tew who peruse this article will be found unacquainted with the widely circulated proofs of the real excellence of the Medicine, to which many will be ready to add the testimonials of their own experience. But if further proof were needed of fact that no Medicine in the market has been so shamelessly and repeatedly counterfeited. Ignohave in different places, manufactured a spurious pill, bearing a superficial resemblance to the true of allestates left by the late John Marr of Kittery, article, but composed either of impotent or deleterious ingredients, which they have sought to foist public as the veritable

Indian Vegetable Pills. These fraudulent Swindlers could never pass off their vile wares upon the public but for the comivance and assistance of self-styled respectable to the Estate of HIRAM CORLISS of Carmel. Druggists, who, for the sake of a little ' fifthy lucre," lend themselves to the monstrous and unhallowed system of imposition. The counterfeiter of a popular medicine is more criminal than a counterfeiter of current money. The injuries done by the latter sink to nothing in comparison with those inflicted upon society by the former. We might paint him wringing the mite from the hard hand of invalid penury which is extended for the boon of health, and receives instead the vile drug that protracts and aggravates disease, or to view it in its best aspect, suffers it to rage unchecked. How melancholy is the reflection that thousands may have been hurried to the grave by having a counterfeit substituted for the true Medicine; who but for the venal fraud might now be living in high health, the delight and hope of the social circle. All classes are interested in putting down these vile Counterfeiters. Let the Stores where they are sold

be marked and Shunned. Let the virtuous indignation of the community

administer to all concerned in these unfair practices a general and withering reboke.

CAUTION: To e public will please observe that the gennine

NEW PRINCIPLES OF PURGATIONS CORNARO'S

will be sold at Public Auction on Friday the second Purifying and Preserving day of February next at ten o'clock, A. M., at the PILLS. office of Goss & Upham, in Bangor, for cash, all the interest that the estate in Bankruptcy of DAN-IEL J. PERLEY of Oldtown, has, (or had at the

THE American public has for a long time been the victim of a false and dangerous system of medicine founded on the practice of LONG CONTINUED AND UNRELIEVED PURGATION. The evils of this old system are of the most widespread and alarming character. They have reached through every vein and artery of our nation. In every city, and village, and hamlet-in every State and Territory of our vast Republic, will be found those who have suffered, or who are still suffering from the injurious effects of this old system, of whose practical utility the disease, decay, and utter prostration of those who test it furnish the most condemning proofs!
COMMON DRASTIC PURGATION

Scours out the system by the most improper and violent means, and then leave it, weak, low, feeble debilitated, to regain its strength as best it may --Sometimes the consequences of this old Purgative practice are worse than mere Debility. Inflammation of the Bowels, Slow Fever, Bloody Piles, and other horrible disorders are produced, simply from the want of some enlivening and preserving power in the medicine employed. Sometimes the digestive organs are deeply and permanently injured by this coarse and unphilosophical practice, leaving the patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system of Purgation, have led to the introduction of a new Life-giving Medicine, called CORNARO'S PURI-Mass., certain property in the hands of Abraham FYING AND PRESERVING PILLS, which are established on this new and only true principle of Purgation, viz :

NO PURGATION WITHOUT IMMEDIATE RESTORATION.

The use of this admirable Purgative remedy trikes a death blow to that abominable system, which by continually evacuating the bowels without any conservative or saving power, so dreadfully and fearfully prostrates and injures the unhappy patient. These Purifying and Preserving Pills are believed to constitute the perfection of medicine, being a UNIVERSAL VEGETABLE PURGA-TIVE, containing two great remedies combined, viz: One remedy to PURIFY FROM CORRUP-TION, and another to PRESERVE FROM INJU-

And for the purpose of attaining the highest deree of purity in the preparation of these Pills, Dr. Bradlee has, at a vast expenditure of time and money, invented and patented at Washington, a chemical and philosophical apparatus for distilling and refining vegetable extracts, called THE SEVEN-FULD FURNACE,

A powerful and novel machine-having Seven Fires and Seven Alembics, with distilling, condensing, and evaporating fixtures of a new and ingenious contrivance, capable of obtaining more than seven times the ordinary purity of any vegetable extract heretofore used in compounding medicine. The Baliamic and Preserving power of these Pills is also, by this invention, highly purified and refined, and so mingled with the operative medicine, that it repairs all the injuries created by Purgation as soon us they are caused, and strongly fortifies the system against future corruption and decay.

Let the public be no longer deceived by the advertisements of the "one remedy" doctors, who show their entire ignorance of the organic laws of the hucustomers and the public in general, that he has man system by supposing that a medicine which purges merely, without renovating or preserving, can be a perfect remedy. For it is a fixed and immutable law of our being that there should be, in no case, Purgation without immediate Restoration; and hence it follows, and is proved to demonstration, that all Purgatives which DO NOT possess a saving and preserving power, are injurious, and injurious onlyand possess NOT ONE REDEÉMING QUALITY.

The whole theory of common drastic Purgation is based upon unnatural and absurd laws, and they who follow it fall victims to their own folly, and too late repent their temerity.

『声BEWARE OF UNRELIEVED PURGA-

TION! Purge and Preserve, or do not attempt to Purge at all.

The celebrated PURIFYING AND PRE-SERVING PILLS, purify the body from corruption and preserve it from injury and decay by a single operation. They are a Universal Vegetable Purgative, of sovereign use in all diseases of the human system in which purgation is required, particularly in Jaundice Indigestion, Dyspepsia, Eruptions of the Skin, Scrofula, Piles, Costiveness, Bilious Disorders, Liver Complaint.
